

KLOVE is a station I just discovered and find it to be such an encouragment. I think it takes the stress out of driving and gives me a peace driving around my city and surrounding areas.

I think it is in the public best interested to maintain KLOVE exactly as it is. It provides far reaching benefits to all the listeners. No offensive talking and lots of positive words. You can be in the cars with your kids and know that they will not be exposed to negative crude talk or commercials.

It blesses people where they are and in a puts them in a better frame of mind. What more could a radio station offer!
